

To whom it may concern,

I liked to comment on www.klove.com.

1. As a resident in my local community 106.7 FM KLOVE radio is an awesome alternative to the current junk on radio. It's great to listen to positive music with inspirational lyrics. I truly think it's important to reinforce that in today's decaying community.

2. The effect on the local community if K-LOVE were to be displaced by an LPFM broadcaster providing other programming would be devastating to our community. As I already commented, we are in a state of decay as a moral society. It's really important to give the youth of our country and others a choice to listen to positive, reinforcing, inspirational, and uplifting alternative music.

3. I believe that the service provided by K-LOVE is in the public interest. People around the world listen to klove off of the net as well and it has inspired youth in a positive way. It's awesome that we do have a choice to listen to the junk on radio or to tune into klove. Please don't take that choice away from us, as you have with so many other things in our every day life. Let's keep freedom of choice in America.
